Предисловие / Editorial

Исследовательские работы / Research papers

- ▲ *Development of a hierarchical integrated enterprise management system with the use of the grai-gim and cimoso methodologies* 3
I. Lvovich, E. Lvovich
- ▲ *Modeling of dynamic organizational structures building process in enterprise management system of various orders*..... 14
E. Ružický, F. Schindler
- ▲ *Algorithmization of dynamic enterprise management structure building and target function of its development*..... 24
F. Schindler, V. Kostrova
- ▲ *Expert-optimization modeling of control actions choice and allocation of functions in dynamic organizational structures*..... 36
Martin Šperka, Juraj Štefanovič, Igor Lvovich
- ▲ *Modeling based on retrospective quantitative information processing via virtual expert resource*..... 54
J. Štefanovič, O. Choporov
- ▲ *Modeling of a numeracy of dominant options of multialternative optimization*... 61
I. Lvovich, J. Štefanovič
- ▲ *Modeling of multi-agent virtual expert competition for the use of expert virtual resource*..... 75
Y. Lvovich, E. Ružický
- ▲ *Algorithmization of interaction of components of expert virtual resource of procedural type in managerial decision-making optimization* 85
Y. Lvovich., O. Choporov, A. Preobrazhensky
- ▲ *The development of CAD of information systems and software for diffractive structures*..... 107
I. Lvovich, A. Preobrazhensky, O. Choporov
- ▲ *Modeling of scattering of electromagnetic waves on the base of multialternative optimization*..... 117
Y. Lvovich, A. Preobrazhensky, O. Choporov
- ▲ *Model decision rules to detect anomalies in information systems*..... 126
B. Akhmetov, A. Korchenko, N. Zhumangalieva, J. Kultan
- ▲ *Automation of the distribution process of sensitive data processing in a hybrid cloud computing environment* 137
A. Tsaregorodtsev, A. Zelenina
