

Annotation

Statistical Yearbook of the Slovak Republic 2023 is the most extensive and comprehensive publication published by the Statistical Office of the Slovak Republic bringing to users thousands of data for the year 2022 in the context of the previous four years and selected primary economic indicators for a period of 14 years.

The data in more than 400 tables are arranged in 31 thematic chapters. The last chapter International Surveys shows the position of Slovakia within EU countries in selected indicators. Visualizations of selected data in xls. as well as pdf. format are also available.

The rich information from the publication can be used for the creation of analyses, articles, and professional works for both experts and the lay public.

The yearbook is again available in electronic format, in full range and free of charge from the moment of publication.

The new electronic version of the publication make it possible to increase the number of editions of the yearbook, to publish its content in several time stages according to the availability of data from various sources. The Statistical Yearbook of the Slovak Republic 2023 has two editions. The second edition published on January 24, 2024 extends the content of the tables with the latest data in chapters 7. Health and 18. Energy.
