## Economic Informatics

Bratislava, Slovak Republic

This is my Bachelor degree program. My main classes taught me to work with databases, information systems, and programming languages such as C, C++, HTML, CSS, and PHP. Besides that, I was studying the basics of the micro and macro economy, finances, and company management.

**Sep 2021**

Currently

**Faculty of Economic Informatics**, University of

Economics in Bratislava

Information Management

Bratislava, Slovak Republic

I am currently a student in the last year of my Master's degree. This is a continuation of the Bachelor's degree. I am learning to work with more complex databases, business intelligence, and machine learning where we were using python language to process and visualize different kinds of data. Besides that, we are learning the basics of Fuzzy logic, financial analysis, and managing information systems.

**Jan 2022**

May 2022

**Faculty of Social Sciences, Business and Economics**,

Åbo Akademi University

Information Management

Turku, Finland

This is an Erasmus+ study in Finland. I studied various subjects such as data management, information retrieval, development of digital services, business analytics, information services management, information architecture, and strategies.
